**Committee:** House Commerce

**Date Introduced:** February 6, 2008

**Date of Summary:** April 11, 2008

The bill amends Public Act 350 of 1917 to require a copy of a seller's driver's license or state identification card to be made and kept as part of the book of record. The bill also permits the dealer's record to be maintained in electronic form. The record must also be numbered consecutively. A copy of the required owner documentation must be submitted to local law enforcement on Monday of each week. This report may be in electronic form and must be verified in a manner acceptable to the chief local law enforcement officer. Irrigation systems and agricultural machinery are added to the list of stolen scrap metal items contained in Section 8 of the bill for which the felony punishment is imprisonment for not more than 5 years or a fine of not more than \$10,000, or both. The bill is identical to Senate Bill 888.
